Jonathan R. Glatstein

10469 SW 80 St. Miami, FL 33173

(305) 273-7774 jglatstein@aol.com

OBJECTIVE

Senior Technician, Technical Supervisor, or middle management position in Information Systems taking advantage of my medical, emergency service, or military background. Desired salary in the mid to upper-mid five digit range.

EMPLOYMENT

Owner/Operator • Twidgets & Bits Computer Service, Miami, FL • June 1994 to Present

Self employed computer consultant. General practice including hardware, software, networking, custom applications, web presence, etc.

FC1 (SW) • United States Navy • Mid 1984 to Mid 1994

First Class Petty Officer (Paygrade E-6) Fire Controlman (roughly equivalent to Senior Supervisor in private sector). Senior Technician in Weapons Systems electronics. Specialized in the AEGIS weapons system, the most advanced Naval weapons system in the world today. Last position was Combat Systems Division Leading Petty Officer, USS Curtis Wilbur, DDG-54. Supervised a division of 47 technicians throughout the construction, testing, commissioning, and first several months of service. Multiple military, industry, and management qualifications and awards received. Held Top Secret and Nuclear Weapons clearance.

Fireman/Paramedic • Snowmass-Wildcat Fire Protection District, Snowmass Vlg, CO • 1976 to 1984

Firefighter and Paramedic on this combination fire dept servicing the ski resort of Snowmass Village and the surrounding rural and wildland areas. One of the first Paramedics in the Pitkin County Area (Aspen, Snowmass, Basalt). Department training officer. Pitkin County Disaster Planning Council.

SKILLS

- ▶ Intimately familiar with all current computer hardware standards
 - ▶ Fluent in several programming languages including FoxPro, Dbase, and HTML
 - ▶ Expert in DOS, Windows, and Windows 95, Familiar with UNIX and Netware.
 - ▶ Experience with Internet based tools and applications
 - ▶ Expert in all areas of electronics
 - ▶ Able to learn new programming languages, operating systems, and applications quickly
 - ▶ Outstanding "people" and management skills
 - ▶ Dated, but good medical skills and knowledge
 - ▶ Outstanding disaster planning and execution skills (computer, personnel, and municipal)
-

OBJECTIVE

Senior Technician, Technical Supervisor, or middle management position in Information Systems taking advantage of my medical, emergency service, or military background.

EMPLOYMENT

Owner • Twidgets & Bits Computer Service, Miami, FL • **June 1994 to Present**

Manage my own computer consultant business including hardware, software, networking, custom applications, web presence, etc. Manage I.T. assets for many small businesses. Complete system management, systems analysis, long term planning, budgeting, implementation, project management, and day to day maintenance and repair. Clients range in size from the City of Hialeah Gardens to home office businesses. Simply put, I am the I.T. department for organizations that need, but don't have one.

FC1 (SW) • United States Navy • **Mid 1984 to Mid 1994**

First Class Petty Officer (Paygrade E-6) Fire Controlman. Senior Technician in Weapons Systems electronics. Last position was Combat Systems Division, Leading Petty Officer (LPO). Managed a division of 47 technicians through the construction, testing, commissioning, and first several months of service of the AEGIS Destroyer USS Curtis Wilbur, DDG-54. Multiple military, industry, and management qualifications and awards received. Top Secret and Nuclear Weapons clearances held. Honorably Discharged at the end of my second period of obligated service.

Fireman/Paramedic • Snowmass Fire Department, Snowmass Village, CO • **1976 to 1984**

Firefighter and Paramedic on this combination fire dept servicing the ski resort of Snowmass Village and the surrounding rural and wildland areas. Department training officer. Pitkin County Disaster Planning Council. Left the Fire Dept to join the Navy.

SKILLS

- ▶ Intimately familiar with all current computer hardware standards
- ▶ Fluent in several programming languages including FoxPro, Dbase, and HTML
- ▶ Expert in DOS, Windows, and Windows 95, Familiar with UNIX and Netware.
- ▶ Experience with Internet based tools and applications
- ▶ Expert in all areas of electronics
- ▶ Able to learn new programming languages, operating systems, and applications quickly
- ▶ Outstanding "people" and management skills and experience
- ▶ Good medical skills and knowledge
- ▶ Outstanding project planning and execution skills and experience
